

FOREST GORLICE

Polish manufacturer of wooden products

Furniture legs

Adjustable furniture legs made from durable materials. Provide stability even on uneven surfaces. Easy to install, solid construction, and an elegant finish.

Wooden frames and bases

Our wooden frames and structures provide a stable, stylish foundation for armchairs, sofas, and other furniture. Durable, precisely crafted, and easy to install – perfect for adding lightness and timeless charm to any piece.

FOREST GORLICE

WE PRODUCE DURABLE, AESTHETIC, AND READY-TO-ASSEMBLE WOODEN COMPONENTS FOR CHAIRS – FOR MANUFACTURERS, CARPENTERS, AND FURNITURE DESIGNERS.

WOODEN BACKREST FRAME

Precision-milled with pre-drilled mounting holes for easy integration into the chair structure.

WOODEN SEAT FRAME

A strong and stable seat frame forms the foundation of the entire chair. Rounded corners and smoothly finished surfaces ensure both elegance and user comfort during assembly and use.

LEG FRAME

A modern, slightly angled leg frame combined with the backrest element provides both structural support and a stylish design feature.
